Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 39-46 are pending

Response to Arguments

Applicant's arguments filed 04/09/2007 and 12/20/2007 have been fully considered but they are not persuasive. With regard to priority, the noted passages are not in such full, clear, concise, and exact terms as to enable any person skilled in the art to make the invention (i.e. its not spelled out, one of ordinary skill in the art would require an inventive step to combined the teachings to come up with the claimed invention, especially since the passages are referred to as different embodiments). See the prior responses to arguments for support of this position. With regard to the new matter rejection and objection, the burden is higher than enablement for new matter. The disclosure must reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Without enablement (as discussed above) possession cannot be shown. The passage sighted states multiple metal, but processed to support this discussing only two metal (i.e. multiple). Regarding the double patenting rejection, the rejection will be maintained until traversed or a terminal disclaimer is filed. Although applicant did not properly challenge, rebut or request evidence of the Examiner official notice (which is still be treated as admitted prior art), references Tower (US 5217483 0.004 inches thick) and Harada et al (US 5201901 0.004 mm thick) are being supplied in support of admitted prior art to make the stent wall as thin as possible on the order of 0.005 inch or 0.1 mm (or less) for the purpose of supporting the vessel wall but not interfering with the flow of blood. The rejection and objection stand as in the prior office action filed 10/13/2006

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
